Product Certification Identity Card

At the core of our offer lies sustainability, with products crafted from recycled or sustainable materials. At AODACi, we are committed to promoting sustainability and environmental responsibility by:

- Materials: use of recycled or natural materials in the manufacture of our products - recycled plastics, recycled paper, recycled metals.
- Packaging: developing packaging made from recycled and recyclable materials to reduce waste. Designing and developing the second life of packaging, giving it a new function.
- Circular economy: implementing processes that facilitate the reuse and recycling of materials at the end of their useful life.

It is important to understand that so far, AODACi is only FSC certified, and this document is not intended to claim any certification under GRS or RCS standards. The information below shows what kind of certification the materials and/or supplier has for our products. On our sustainability journey, we plan to be fully GRS and RCS certified by 2025.

Importer: Aodaci Lda.

Item number: ABK026

Item description: Daily backpack

Item picture:

Material(s):

600D recycled polyester with TPE backing	GRS
Individual recycled polybag	GRS
Lining - 210D RPET	GRS
Webbing	GRS

GRS – Global Recycled Standards
