Herbs

Basil

Tasty, versatile herb that's easy to grow and livens up any Mediterranean dish.

Thyme

Hardy herb for indoors and outdoors, that goes well with meat and vegetables.

Sage

An insect-friendly, sun-loving, perennial herb that adds a flavor hit to so many dishes.

Parsley

This italian, flat leaf variety has a mild and aromatic flavour you can savor all year-round

Rucola

These peppert salad leaves are perennials that can tolerate low temperatures

Trees

Spruce

A popular symbol of the circular economy in action, with a captivating pine scent.

Flowers

Sunflower

Big, bold, statement flowers that spread smiles of joy wherever they grow.

Forget-me-not

Easy to grow and rich with symbolism, these tiny blue blooms are not easily forgotten.

Wildflower

Bee-friendly and bright, beautiful wildflowers help support local biodiversity.

Daisy

Delicate, pretty, bee-friendly flowers that thrive in pots, window boxes and gardens.

Eternity flower

Colorful, daisy-like flowers that can be dried, then admired year-round

Vegetables and fruit

Cherry tomato

These juicy baubles burst with sweetness and are so easy and satisfying to grow.
Edible when mature.

Cucumber

Perfect for pickling,
This variety of cucumbers grow well in space, sun, and warmth.

Melon

Sweet and aromatic, these bee-friendly fruits thrive in warm, sunny spots.

Aubergine

Aubergine or egglant has pretty purple flowers, loves sun and warmth, produces 3-4 fruit in a summer, and helps bees to pollinate.

Strawberry

Alpine Strawberry, or "Wild Strawberry", produces sweet and beautiful berries a little smaller than those you can buy in stores.

Chili

Hot and popular all around the world. It prefers temperatures over 20 degrees Celsius and can sprout within 10 – 20 days.
